

## New Heroes in Pharmaceutical Medicine

It is with great pleasure that, on September 17, 2020, at the IFAPP House of Delegates virtual meeting, IFAPP offered the “Hero in Pharmaceutical Medicine” Award to [Dr. med. Johanna Schenk, FFPM, GFMD](#) and to Prof. [Peter Stonier, MB ChB, BSc, PhD, MRCPsych, FRCP, FRCPE, FFPM, GFMD](#).

Both were IFAPP Presidents in the past and are continuing to serve the Federation as active members in Working Groups. In addition, both have devoted significant efforts to promote Pharmaceutical Medicine in their home country and globally.

A formal celebration will be organized during the next European meeting as soon as it will be possible to meet again face to face without risks.

In the meantime, please join all IFAPP Board members to congratulate Johanna and Peter.
