FPM Annual Symposium 2021 will bring together global leaders and innovators from pharmaceutical medicine and beyond for a landmark two-day virtual conference.

Join Dr Özlem Türeci, Dr Stephen Lockhart, Professor Jonathan Van Tam, Dr June Raine and many more outstanding speakers at our headline annual event to reflect on the extraordinary learning curve we have all been on and look towards a bright new future for pharmaceutical medicine and medicines development.

The main themes running through this two-day online event:

- **AI and digital health,**
- **clinical trials adaptations and innovations,**
- **health policy,**
- **and communication with patients and the public.**

About us

FPM is a Not for Profit with a vision of a world where effective medicines meet the needs of patients.
