

IFAPP WEBINAR

Tuesday, September 17, 2024
01:00 - 02:30 PM CEST

Patients' cross-border access to clinical trials

The unmet global need for patients
and clinical researchers

[Register in advance for this webinar](#)

After registering, you will receive a confirmation email containing information about joining the webinar.

Time Schedule

06:00 - 07:30 AM EST
11:00 - 12:30 AM GMT
01:00 - 02:30 PM CEST
08:00 - 09:30 PM JST

Patients with life-threatening or rare diseases and patients living in research-poor countries are interested in joining a clinical trial in another country because that might be the only remaining treatment option. And investigators would reduce their recruitment struggles if they could enrol patients from other countries. But in reality, such participation is very difficult to enable and therefore hardly happens.

In this webinar the needs, the financial, ethical, regulatory and organisational hurdles, best practice examples and a European initiative aiming at facilitating such participation in practical terms will be presented and discussed with the audience.

Agenda

13:00 Welcome and Introduction

Birka Lehmann, IFAPP ECWG, Germany

13:05 Why is cross-border access to clinical trials needed but not happening?

Teodora Lalová-Spinks, KU Leuven, Belgium (today still N.N.)
Q&A

13:30 What patients and clinical researchers need

Bettina Ryll, Melanoma Patient Network Europe, Stockholm School of Economics, Sweden
Q&A

13:55 The EU-X-CT Initiative, a roadmap towards improvements

Emilie Prazaková, Senior Patient Engagement and Advocacy Leader, Roche, Switzerland

14:15 Questions and Open Forum Discussion

Moderated by Birka Lehmann, IFAPP ECWG

14:30 Closing remarks

Birka Lehmann, IFAPP ECWG

Time Schedule

06:00 - 07:30 AM EST

11:00 - 12:30 AM GMT
